(1) NM = Not meaningful

(2) Does not include real estate held for sale as of March 31, 2015.

(3) We realized a \$5.3 million gain on debt satisfaction upon conveyance of our Roseville, MN property in a deed-in-lieu transaction completed during the quarter ended December 31, 2014.

#### First Quarter Activity:

- **Acquired properties:** Purchased 2 fully-occupied properties consisting of a total of 186,834 square feet for an aggregate purchase price of \$28.3 million at a weighted average cap rate of 8.4%;

- **Issued Debt:** Issued \$14.6 million in mortgage debt collateralized by one property acquired this quarter at a fixed interest rate of 3.86%;
- **Issued common stock:** Issued 870,000 shares of common stock through our ATM Program, resulting in net proceeds of \$15.1 million;
- **Extended leases:** Extended the term of two leases that were set to expire in 2015, and one lease that was set to expire in 2016;
- **Paid Distributions:** Paid monthly cash distributions for the quarter totaling \$0.375 per share on our common stock, \$0.4843749 per share on our Series A Preferred Stock, \$0.46875 per share on our Series B Preferred Stock, \$0.4453125 per share on our Series C Term Preferred Stock and \$0.2625 per share on our senior common stock.

**First Quarter 2015 Results:** Core FFO available to common stockholders for the three months ended March 31, 2015, was \$8.0 million, or \$0.38 per share, a 3.8% increase when compared to the three months ended December 31, 2014. Total Core FFO increased primarily due to the increase in operating revenues derived from the two acquisitions this quarter, coupled with a decrease in general and administrative expenses due to a one time deferred rent adjustment recorded in fourth quarter 2014, partially offset by an increase in interest expense from the mortgage debt issued in 2015 and fourth quarter 2014.

Net loss attributable to common stockholders for the three months ended March 31, 2015, was (\$0.6) million, or (\$0.03) per share, compared to net income available to common stockholders for the three months ended December 31, 2014, of \$4.9 million, or \$0.36 per share. A reconciliation of Core FFO to net (loss) income for the three months ended March 31, 2015 and December 31, 2014, which the Company believes is the most directly comparable GAAP measure to Core FFO, and a computation of basic and diluted Core FFO per weighted average share of common stock and basic and diluted net income per weighted average share of common stock is set forth in the Summary Information table above.

#### **Subsequent to the end of the quarter:**

- **Issued Loan:** Issued a \$0.3 million real estate interim financing loan, at an interest rate of 22.0%;
- **Signed Term Sheet:** Signed a term sheet to refinance \$22.0 million of mortgage debt on three properties that are maturing in 2015; and
- **Declared Distributions:** Declared monthly cash distributions for April, May and June 2015 totaling \$0.375 per share on its common stock, \$0.4843749 per share on our Series A Preferred Stock, \$0.46875 per share on our Series B Preferred Stock, \$0.4453125 per share on our Series C Term Preferred Stock and \$0.2625 per share on our senior common stock.

**Comments from the Company's President, Bob Cutlip:** "Our results for the quarter reflect an increase in revenues from our real estate investments made during the past two quarters. The weighted average cap rate on our invested capital during the first quarter of 2015 was 8.4% and we financed one of these properties at a very attractive interest rate, resulting in highly accretive investments. We have successfully increased our total assets for 14 consecutive quarters and are extremely pleased with our activity, high occupancy and consistency over the last several years. We have a very strong pipeline today and expect to close a substantial amount of deals during the remainder of 2015. We also continue to focus on our portfolio, working with our existing tenants to extend leases scheduled to expire in the remainder of 2015 and 2016, and to re-lease our space that remains vacant. We are looking forward to a successful 2015."

#### **Non-GAAP Financial Measures:**

**FFO:** The National Association of Real Estate Investment Trusts ("NAREIT") developed FFO as a relative non-GAAP supplemental measure of operating performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. FFO, as defined by NAREIT, is net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property and impairment losses on property, plus depreciation and amortization of real estate assets, and after adjustments for unconsolidated partnerships and joint ventures. FFO does not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an alternative to net income as an indication of its performance or to cash flow from operations as a measure of liquidity or ability to make distributions. The Company believes that FFO per share provides investors with an additional context for evaluating its financial performance and as a supplemental measure to compare it to other REITs; however, comparisons of its FFO to the FFO of other REITs may not necessarily be meaningful due to potential differences in the application of the NAREIT definition used by such

other REITs.

**Core FFO:** Core FFO is FFO adjusted for certain items that are not indicative of the results provided by the Company's operating portfolio and affect the comparability of the Company's period-over-period performance. These items include the adjustment for property acquisitions costs, gains or losses from early extinguishment of debt and any other non-recurring expense adjustments. Although the Company's calculation of Core FFO differs from NAREIT's definition of FFO and may not be comparable to that of other REITs, the Company believes it is a meaningful supplemental measure of its operating performance. Accordingly, Core FFO should be considered a supplement to net income computed in accordance with GAAP as a measure of our performance.

The Company's presentation of FFO, as defined by NAREIT, or presentation of Core FFO, does not represent cash flows from operating activities determined in accordance with GAAP and should not be considered an alternative to net income as an indication of its performance or to cash flow from operations as a measure of liquidity or ability to make distributions.
